

Instructions for Viewing the Dashboards using Internet Explorer 9 and 10

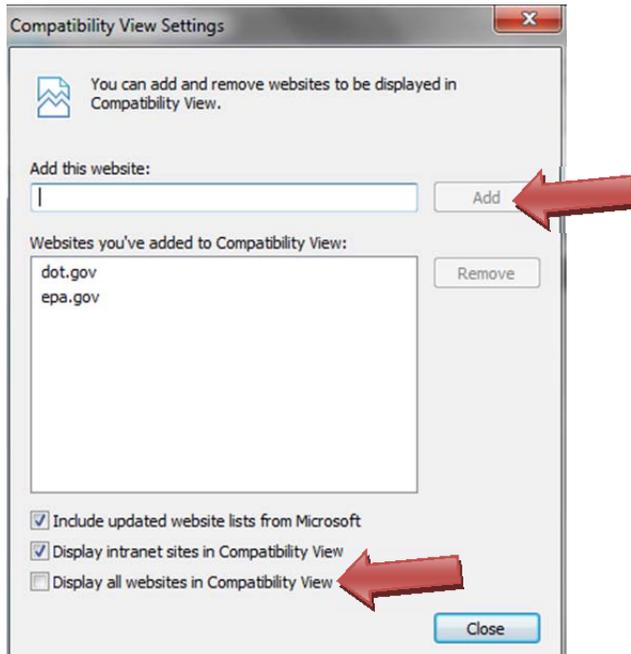

- Enable the Command Bar by right clicking the empty space on the toolbar, and clicking on **“Command Bar”** to check it.

- Select the **“Tools”** option within the Command Bar, and select **“Compatibility View settings.”**

- Select “**Add**” to add the epa.gov website to be displayed in Compatibility View, or check the box to display all websites in Compatibility View.

- If you have not setup Compatibility View for all sites, you can change the method of viewing each individual site by clicking on the circled icon to the right of the Address Bar. The circled icon will display the site in Compatibility View, and will disappear if the “**Display all websites in Compatibility View**” checkbox is selected.
