

1.0 ICIS-FE&C Data Elements Included in IDEA Data Download

The Integrated Data for Enforcement Analysis (IDEA) system incorporates Federal enforcement and compliance (FE&C) data from the Integrated Compliance Information System (ICIS), used to track federal enforcement cases. ICIS contains information on federal administrative and federal judicial cases under the following environmental statutes: the Clean Air Act (CAA), the Clean Water Act (CWA), the Resource Conservation and Recovery Act (RCRA), the Emergency Planning and Community Right-to-Know Act (EPCRA) Section 313, the Toxic Substances Control Act (TSCA), the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund), the Safe Drinking Water Act (SDWA), and the Marine Protection, Research, and Sanctuaries Act (MPRSA). ICIS may contain duplicates of actions and penalties shown in the program databases (AFS, PCS, and RCRAInfo).

1. ICIS Description

ICIS is a case activity tracking and management system for civil, judicial, and administrative federal EPA enforcement cases. Case information is supplied and updated by EPA's Offices of Regional Counsel and Office of Civil Enforcement case attorneys. The basic structure of an ICIS FE&C record focuses on an enforcement case. It is assigned a case number and a case name which identifies the defendant (or principal defendant if more than one is named in the complaint). In the case of administrative actions, the record includes the nature of the violation, statute(s) involved, and milestone dates (e.g., the date the order was issued). Judicial actions contain information similar to that for administrative actions, but include more detailed milestone dates. IDEA contains a subset of the ICIS data which includes:

- General Case Information—Case Number, Case Name, etc.
- Violation Information—Law/Section, Violation Date, etc.
- Defendant Name(s)
- Milestone Dates—Referred to DOJ, Filed, Concluded, etc.
- Penalty Amounts – Fines, SEPs, etc

ICIS tracks enforcement actions taken against companies or individuals. Therefore, the ICIS case name may not exactly correspond to the facility name for ICIS records linked via FRS to facility records from other program office data systems.

Scope of ICIS data download:

The Integrated Compliance Information System (ICIS) tracks all formal administrative and judicial enforcement actions taken by the U.S. EPA and is used as the system of record to provide official enforcement data. Additionally, state formal CWA administrative and judicial enforcement actions for those States using ICIS-NPDES are also tracked by ICIS FE&C. The ICIS download includes data on issued administrative orders and filed judicial cases under EPA and State enabling statutory authorities. The majority of EPA enforcement actions are initiated and tracked by the EPA regional offices. The cases are updated on a regular basis to provide new information.

3. ICIS Data Element Definitions

The following is a list of the data elements and ICIS-derived elements that appear in the IDEA–ICIS download. The data elements are listed alphabetically.

ACTMMFL (Multi-media Flag) The flag to indicate whether the activity was a multimedia action. Multimedia actions involve violations of multiple environmental laws

ACTSTTC (Activity Status Code) The unique code that identifies the current status of an activity. Possible values include:

Administrative Enforcement Action Closed	Demand for Stipulated Penalties
Active	Environmental Appeals Board Decision
Administrative Hearing	Final Order Issued
Complaint/AO Issued	In Compliance
Enforcement Action Record Opened	Administrative Law Judge Decision
Appeal To Administrator	Pre-Referral Negotiation
Civil Enforcement Action Closed	Referred To DOJ
Complaint Filed	Referred To HQ
Closed	Returned To Region
Compliance Achieved	Settlement Present
Concluded	Stayed While Under Appeal
Enforcement Action Record Opened	To US Attorney

ACTTYPC (Activity Type Code) - A one-character code that identifies the enforcement instrument used in the enforcement action. **ACTIVITY TYPE CODE VALUES:**

Value	Short Description	Long Description
A	Consent decree or court order resolving a civil judicial action	A consent decree or court order entered resolving a civil judicial action.
B	Administrative penalty order with or without injunctive relief	An administrative case signed by the final EPA official (e.g. Regional Administrator (RA), Deputy Regional Administrator (DRA), or Division Director) for which the relief sought may or may not include injunctive relief and which includes an assessed penalty.
C	Superfund administrative order for cost recovery	An administrative case signed by the final EPA official (e.g. RA, DRA, or Division Director) for cost recovery. This is a non-judicial enforcement action to recover Federal, State, or local expenses for environmental correction, litigation, or similar activities from a party or parties responsible for all or a portion of the environmental problem.
D	Federal facility compliance agreement (not including RCRA matters)	A federal compliance agreement case.
E	Field citation	An administrative action requiring relief of a violative condition and/or setting penalty issued onsite by a credentialed EPA representative.
F	Administrative Compliance Orders	An administrative order signed by the final EPA official (e.g., RA, DRA, or Division Director) which requires compliance action(s) by a violator, and which does not include an assessed penalty.

COMPATX – Compliance Action Text - Text description of enforceable requirement that the defendant/respondent is obliged to take or refrain from certain, specified actions.

COMPATY- Compliance Action Type Code - The unique code that identifies the physical and non-physical requirements obliging the defendant/respondent to take or refrain from certain actions.

COMPALN- Compliance Action Text Line Number - Derived Value for line number of text description of enforceable requirement that the defendant/respondent is obliged to take or refrain from certain, specified actions.

DEFENNC- ICIS Facility ID - The unique identification number for a facility site.

DEFENNM- Defendant Name- A 50 character field that contains the name(s) of the defendant(s), PRPs (for Superfund cases), or respondents associated with the case.

DEFENNS- Defendant Named in Settlement Flag - The name of the defendant, PRP (for Superfund cases), or respondents associated with the settlement.

ENFCCAA- Total Compliance Action Amount- Dollar value of sum of compliance action amounts (derived value from IDEA). This field is the settlement\case level sum of ENFTCAA. The combination of the injunctive relief and the physical or nonphysical costs of returning to compliance. Injunctive relief represents the actions a regulated entity is ordered to undertake to achieve and maintain compliance, such as installing a new pollution control device to reduce air pollution, or preventing emissions of a pollutant in the first place.

ENFCFPA – Federal Penalty Assessed Amount- For civil judicial enforcement actions, this amount is the Federal penalty assessed against the defendant(s) as specified in the final entered Consent Decree or Court Order. For administrative enforcement actions, it is the penalty assessed in the Consent/Final Order. It does not include the amount of the penalty mitigated due to a SEP or the amount shared with the state or local entities. Interest payments associated with a penalty paid over time are not to be included in this amount. It is the total Federal amount for each settlement.

ENFCID – Enforcement Conclusion ID - The unique identifier for each settlement within a case.

ENFCOAC- Enforcement Conclusion Action Code - The unique code that identifies the types of enforcement conclusion actions.

Activity Type	Enf Conc Code	Enforcement Conclusion Action Description
AFR	ACO	Administrative Compliance Orders
AFR	AOC	Superfund Administrative Order For Cost Recovery
AFR	APO	Administrative Penalty Order With or Without Injunctive Relief
AFR	FCT	Field Citation
AFR	FFC	Facility Compliance Agreement (Not Including RCRA Matters)
AFR	NOD	Notice of Determination
AFR	PSA	Proposed Administrative Settlement
JDC	CDC	Consent Decree or Court Order Resolving a Civil Judicial Action
JDC	PSJ	Proposed Judicial Settlement

ENFCOAC- Enforcement Conclusion Name - The unique name of a settlement associated with an enforcement action.

ENFCRAA- Cost Recovery Awarded Amount -The amount of cost recovery ordered or agreed to be repaid by the responsible party of parties and due the Superfund in accordance with either an administrative or judicial settlement.

ENFCSED – Settlement Entered Date - The civil case date the settlement is signed by the presiding Judge and entered by the Clerk of the Court. It is the date the Clerk stamps on the document.

ENFCSLD – Settlement Lodged Date - The date the settlement document is given to the Clerk of the Court for lodging in the District Court. It is the date the Clerk stamps on the document.

ENFCSLP – State\Local Penalty Amount - The penalty amount for local government or state settlements.

ENFOBRN – The EPA Branch or unit office responsible for the enforcement action.

ENFOCNU - Case Number - A unique number used as the key field, identifying the enforcement action these numbers begin with either an EPA region or "HQ" for headquarters cases; followed by the fiscal year in which the action was initiated. After the fiscal year there is a sequence number.

ENFOHQD – EPA Headquarters Division

ENFOLN – Enforcement Summary Line Number – Derived Value

ENFOOUT – Enforcement Outcome Code - The unique code to identify the outcome of the enforcement action. The following is a list of possible outcomes:

Combined With Another Case(s)	Litigated, Lost
Default Order, No Penalty	Litigated No Penalty
Default Order With Penalty	Litigated With Penalty
Default Order With Penalty & Specified Cost Recovery	Litigated With Penalty & Specified Cost Recovery
Default Order With Specified Cost Recovery	Litigated With Penalty & Unspecified Cost Recovery
Dismissed By Tribunal	Litigated With Specified Cost Recovery
DOJ Declined	Litigated With Unspecified Cost Recovery
EPA Did Not Pursue	Source Agrees
EPA HQ Declined To Refer	Unilateral Administrative Order Without Adjudication
Final Order No Penalty	Unknown
Final Order With Penalty	US Attorney Declined
Final Order With Penalty & Specified Cost Recovery	Voluntarily Dismissed After Filing
Final Order With Pen & Unspecified Cost Recovery	Withdrawn By EPA HQ
Final Order With Specified Cost Recovery	Withdrawn By Region
Final Order With Unspecified Cost Recovery	Withdrawn: Deferred To State

ENFORCD - Court Docket Number - A 50 character field that contains the number that the Clerk of the Court assigns to a case when it is filed or to a consent decree when it is lodged. For administrative cases, ENFORCD is the number assigned to the case by the Regional Hearing Clerk.

ENFORNM – Enforcement Name - An alphanumeric field (up to 100 characters) that contains the name assigned to the case by the lead attorney. Generally the primary defendant's name is used as the case name.

ENFORNU – Enforcement Conclusion Number - A unique number used as the key field, identifying the enforcement case conclusion.

ENFOSUM - Enforcement Summary Text – Derived Value

ENFOTPA – Total Federal Penalty Assessed Amount- Derived- The total federal penalty amount assessed for an enforcement action.

ENFOPS - Penalty Sought Amount- (Derived) - The sum of case amount of the preliminary deterrence amount minus an adjustment that is based on renegotiation adjustment factors. It is the amount asked for in the filed complaint even though a complaint may be filed with a negotiated consent instrument, such as a final order or a consent decree.

ENFOTSA - Total SEP Amount minus Max(ENFCSEP, Sum(SEPAMT)) Derived value in IDEA- A numeric field that indicates the total cost for all Supplemental Environmental Projects (SEPs)

entered for the case. The SEP cost is the estimated cost of environmentally beneficial projects which a defendant/ respondent agrees to undertake as part of the settlement of an enforcement action, but which the defendant/respondent is not otherwise legally required to perform.

ENFOVSD – Voluntary Self Disclosure Flag - The flag to indicate the enforcement action was the result of a self disclosure.

ENFRLF- Relief Code- The code to indicate the type of relief requested in the complaint.

ENFTCAA – Historical total_comp_action_amt, legacy data from Docket which ICIS does not update. The combination of the injunctive relief and the physical or nonphysical costs of returning to compliance. Injunctive relief represents the actions a regulated entity is ordered to undertake to achieve and maintain compliance, such as installing a new pollution control device to reduce air pollution, or preventing emissions of a pollutant in the first place.

ENFTYPE - Case Type - A seven-character field that indicates the enforcement case type. For administrative cases, the Type Case is the section of the statute authorizing the action. For administrative cases, more than one administrative Type Case can be entered. Each Type Case entered must have a matching Law entered. For civil cases, only one Type Case is accepted. Type Case code values:

Type Case	Category	Description
ACC	C	Access Order
ASH	M	Special Handling

ENVIAAV – Average Annual Value - Average annual amount of pollutant reduction as a result of the enforcement action.

ENVIMME – Media Code - The unique code identifying a type of media (air, water, land, etc.) where the pollutants or waste would have been emitted/discharged.

ENVIMPC – Pollutant Code - The unique identifier for the pollutant/parameter being reduced.

ENVIMPU – Pollutant Unit Code - The unique code to identify the pollutant unit of measurement.

ENVISCF – SEP or Comp Flag - The flag to indicate if the qualitative environmental impacts pertain to a Supplemental Environmental Project (SEP) or compliance action.

FANAICS – Facility NAICS Code - The 6-digit code that represents a subdivision of an industry that accommodates user needs in the United States.

FCLASIC – Facility SIC Code - The 4-digit Standard Industrial Classification (SIC) code that represents the economic activity of a company.

FCLTCIT - Facility City - A 50 character field that contains the name of the city in which the facility where the violation(s) occurred is located. For violations that occur outside of a facility (e.g., oil spills, pipeline leaks), the city may be the mailing address of the violator.

FCLTPST – Facility Zip Code - A 9 character field that contains the U.S. Postal Zone Improvement Plan (ZIP) code for the area in which the facility where the violation(s) occurred is located. For violations that occur outside of a facility (e.g., oil spills, pipeline leaks), the Zip code may be the one associated with the mailing address of the violator.

FCLTSTC - Facility State - A two-character field that contains the state postal abbreviation for the state in which the facility where the violation(s) occurred is located. For violations that occur outside of a facility (e.g., oil spills, pipeline leaks), the state may be the mailing address of the violator.

FCLTUIN – Facility UIN- The number assigned by the Facility Linkage Application that was used to associate facility records from multiple environmental database systems that were known or believed to represent the same facility.

FCLTYAD – Facility Address - A 50 character field that contains the street address of the facility. It is the physical location of the facility where the violation(s) occurred. For violations that occur outside of a facility (e.g., oil spills, pipeline leaks), the address may be the mailing address of the violator.

FCLTYNM- Primary Facility Name -A 200 character field that contains the name of the facility associated with the EPA Identification Number.

FINORID – Final Order ID- Each consent decree will be uniquely identified through the corresponding settlement because there can only be one decree for each settlement.

FINORNU – Final Order Number - The unique number that identifies each consent decree.

FINORTX – Final Order (Milestone) Text – Derived - The free form text entered by the user to describe the final order.

FIORTLN- Final Order (Milestone) Text Line Number – Derived

LAWSECD- Law Section Code - A 15 character code that indicates the section of the law violated by the defendant(s) and cited in the action. For each entry in the Law field (LAWS) there is a corresponding entry in the Section field. There is an entry for each distinct violation or activity, (e.g., CERCLA cost recovery) identified in the complaint. See LAWSESC for Law and Section values.

LAWSESC – Statute Code The unique code that identifies the law which is authorizing the enforcement action or being violated. (The list of possible laws are presented in the table below.)

Statute Code	Section Code	Law Section Description
CAA	110	State Implementation Plan Standards
CAA	111	New Source Performance Standards (NSPS)
CAA	112	Hazardous Air Pollutants
CAA	112B	Asbestos
CAA	112D	MACT Standards
CAA	112E	MACT Adoption Schedule
CAA	112G	Modification
CAA	112H	Work Practices
CAA	112I	Permits/Compliance Schedule
CAA	112K	Area Source MACT
CAA	112R	General Duty/Accidental Release
CAA	113A	Violation of Existing Administrative Order
CAA	114	Record keeping, Inspection., Information Request
CAA	118D	Federal Facility Motor Vehicles
CAA	129	Solid Waste Fuel Combustion
CAA	165	Prevention of Significant Deterioration (PSD)
CAA	173	New Source Review Permit Requirements
CAA	202	Emission Standards for New Motor Vehicles and New Motor Vehicle Engines
CAA	203	Prohibited Acts: Mobile Sources
CAA	208	Record keeping, Inspection, Information Request
CAA	211	Fuel Regulation
CAA	213	Non-road Engines & Vehicles
CAA	219	Urban Bus Standards
CAA	303	Imminent/Substantial Endangerment
CAA	412	Acid Rain Requirements
CAA	502	Operating Permits (Title V)
CAA	608	CFC Recycling/Emissions Reduction
CAA	609	Motor Vehicle Air Conditioning (CFCs)
CAA	610	Non-Essential CFC Products
CAA	611	CFC Labeling
CAA	PARTC	Prevention of Significant Deterioration (PSD)
CAA	PARTD	Non-attainment/SIP Provisions
CAA	TITLE4	Acid Rain
CAA	TITLE5	Operating Permits
CAA	TITLE6	Stratospheric Ozone Protection
